Golden Sandals.

The highest priced sandals that have ever been made, it is believed, have just been completed by a Lyan shoe firm for the use of a floaton Masonic todge in timilated wark. The sandals to the art of shoemaking. In shape they are like the ordinary sandal, but they are made entirely of gold leaf, thousands of pieces of the leaf going in the making. Gold leaf was used to make them as plitable as possible. The backles are of solid gold. The sandals weigh a little less than three ounces each.

Sea Birds.

The cries of sea birds, especially sea guils, are very valuable to sailors in misty weather. The birds cluster on the ciffs and coast, and their cries warn boatmen that they are near the land.

Olives of Valencia.
With regard to the age of olive ochards in Valencia there are many with authentic histories of 100 to 200 years and a few which were probably bearing fruit when Columbus discovered America.

#### DANGEROUS FREIGHT.

DANGEROUS FREIGHT.

Cargoes That Are a Source of Danger to Vessels.

Exhaustive experiments by the New South Wales government have now proved—what has all along been suspeted—that wool will under certain conditions ignite spontaneously and that consequently it is a daugerous earge to carry.

Probably, therefore, it will be added to the list of commodities which the beard of trade decrees must be stowed with extra care, commodities which in clude such diverse articles as matches, acids, guapowder, coal, wheat and timber.

ciude such diverse articles as matches, acida, guapowder, coal, wheat and timber.

This, however, will be but poor consolation to the harassed sea captala, since all these things have to be carried anyhow, somehow. Besides, the danger frequently lies not so much in cargoes known to be dangerous as in those supposed to be safe.

Thus a cargo of glass bottles cams within an acc of wrecking the sailing ship Camel off the isle of Wight a short preparation sufficed to send to the better of the left of the sailing ship Camel off the isle of Wight a short preparation sufficed to send to the best of the sailing ship camel off the isle of Wight a short preparation sufficed to send to the best of the strait of Magelian the Detected and the 143 souls aboard her. Potatoes that decayed into a putrid pulp ergendered a peetilence that a equiple of years and tilled eleven out of tweaty-seven of the crew of one of the very seven of the crew of one of the cause of the sail the sail to the sail

A SPANISH TRICK.

A SPANISH TRICK.

The Incident Which Moved England har Turn Orake Leose.

The relations between which Drake's rald into the south sea had for a time threatened with open rupture had greatly improved—at least in outward appearance—and in 1850, under apecial promises of immunity from moderation or neighbour or the grounds Philip had invited to his ports a fleet of English corn sinps in order to supply the deficiency of his own harvests to somet, however, had the English ships arrived than an embarace was had one of the english ship arrived than an embarace was had one of the english ship arrived than an embarace was had one of the english ship arrived than an embarace was laid upon them and their crews are careed to be a supply the english of the english ship arrived than an embarace was the english of the english ship arrived than an embarace was supply to the english of the english of the english called upon to surreader, the crew thing them selves upon the Spanina's down them selves upon the Spanina's down them selves upon the Spanina's down them the english vessel. These were humanely rescued and carried in triumph back to England, and among them was the tone correction for the purposes of the expedition which Philip was preparing against the English. This was enough for the queen and the powerful public opinion of commercial cricies in London, which had obstinately clung to pacific relations with Spain. A return of the english of the surface of the expedition which Philip was preparing to pacific relations with Spain. A return of the expedition of t

Meat Extracts.

A medical expert points out that meat juice and meat extracts have a value quite separate from their actual nutritive constituents, inasmuch as they have a direct stimulating action on the gastric juice.

Hall in South Africa.
Summer showers in South Africa are remarkable for terrilic showers of hall, anistones as large as pigeons' eggs having been frequently observed.

Cocos Island Treasure.

It is said that there are two great treasure hoards on Cocos Island—one a pirate's plunder, estimated at anything between \$50,000,000 and \$90,000,000, another called "Keating's treasure," said to be worth \$15,000,000.
